

[Korean Pavilion at the Recycling & Waste Management Exhibition 2009](#)

<http://www.rwmexhibition.com/page.cfm/Link=151/t=m/goSection=4>

15-17 September 2009, NEC Birmingham

The EU-South Korea FTA (Free Trade Agreement) that concluded on 13th July has marked a new era of open trade and investment between the two sides, tearing down business barriers and ending tough negotiations, previously marred by protesters and activists. The landmark free trade deal with the EU will provide great momentum to South Korea's hope of becoming an 'FTA hub' linking business relationships between the UK and Korea.

The Korean Pavilion at the RWM will offer UK attendees the first opportunity to learn about the Korean companies in the Recycling and Waste Management industries that have continuously rolled out innovative but reasonably priced products with the growth rate of over 60% since 2000.

A total of 21 top-tier companies in the sector will be attending the event where the leading products will be introduced to the UK market while providing a forum for the discussion of partnership between the countries with the aim of bringing Korean companies to enter the UK Environmental industries.

A **UK– Korea Waste and Energy Cooperation Forum** is expected to take place on the Korean Pavilion during the exhibition as a means to broaden both sides' understanding of the Recycling and Waste Management industries. There will also be an extensive marketing booth, which will present Korea's Recycling and Waste Management Technology.

During the exhibition, a Korean Recycling and Waste Management related Mission will be visiting around the Korea Institute of Environmental Science and Technology (KIEST), www.kiest.re.kr, in order to search for new products and technical partnership with the UK RWM industries. It will be a great opportunity for the UK organisations to gather information and gain insights into the Korean market.

Upon receiving your application, complimentary 1:1 business meetings will be arranged in order of your preference of Korean attendees from the list below along with the free entrance ticket.

We hope that you will not forego the opportunity to experience the biggest Korean Pavilion arranged at the RWM and for continuous updates and detailed information, please contact JM Jee on 0207 520 5308 or by email jmjee@kotra.co.uk

Yours sincerely,

Gwang Young Chung

Director General
KOTRA, London KBC

MEETING APPLICATION

Company Details	Company Name		Website		
	Address	Street			
		City / Town			
		State / Country		Postcode	
	Date of Foundation (DD /MM/YYYY)		Business type	Manufacturer () Importer/distributor () Others()	
No. of Employees		Annual Turnover of 2008 (EUR)

Exhibitors on the RWM Korean Pavilion

1. OTTOKOREA CO., LTD.	
Products	HDPE Mobile Garbage Bins
Features	<ul style="list-style-type: none"> • Scientifically designed – more solid against impact from exterior • Easy handling to carry around, smooth lid for opening and closing • High resistance to UK radiation, colour alteration • Accredited international standard (in accordance with EN-840)
URL	http://www.otto-korea.com/emain3.asp
2. DONGYANG	
Products	Air pumps
Features	<ul style="list-style-type: none"> • DY-20 Model (20L/MIN) – Air mat (continuous air exhaust), record player (turn table flotation), burner (air supply), scientific and chemical instruments (analysis and agitation) • DY-60 Model (60L/MIN) – Fish breeding equipment (oxygen supply), low frequency theoretic equipment and other medical and scientific apparatus, septic tank and bubble bath
URL	http://www.dy-airpump.co.kr/e_pump4.htm
3. IDEAL SYSTEM CO., LTD	
Products	Colour Sorters
Features	<ul style="list-style-type: none"> • More precise sorting by digital signal and two view sensor • Improved sorting accepts a new electronic circuit • Low air consumption and higher sorting efficiency • Rice bouncing improvement by specially coated shooter
URL	http://www.idealsys.co.kr/eng/main/main.htm
4. BIO HI-TECH CO., LTD	
Products	Food Waste Treatment Machines
Features	<ul style="list-style-type: none"> • No Water required for the treatment process • Applied to Waste Food, Sludge, Slaughter House Waste • 24-hour Cycle Treatment System
URL	www.biohitech.co.kr
5. KOREA MOB	
Products	Temporary PVC Fence for Building Sites
Features	<ul style="list-style-type: none"> • First ever PVC Fence produced in Korea, more environmentally friendly • Reduces cost of construction, makes the working sites tidier and construction methods and soundproof more effective
URL	http://www.koreamob.co.kr/rpp/rpp01.php
6. ERYUN	
Products	Carbon Heating Fibre
Features	<ul style="list-style-type: none"> • Radiates over 90% of electromagnetic waves • 90% deodorising effect – offensive odour treatment for food and cigarette smoke • Over 99.9% anti-bacterial effect
URL	http://www.eryun.com/eng/pro5_carbon.php
7. ARK	
Products	Sludge Dehydrators
Features	<ul style="list-style-type: none"> • Revolutionary technology to sludge dewatering • Low concentration sludge dehydration
URL	http://www.ar-korea.com/main.asp
8. KL CORPORATION	
Products	Batt-Power
Features	<ul style="list-style-type: none"> • Material of Bottle: HDPE • Bottle top: Child secure top
URL	http://www.rapicon.co.kr/
9. BANSUK INDUSTRISE, INC.	
Products	Recycled Rubber Road Mats
Features	<p>1) NR-SHEET – NR INSERTION SHEET: general packaging and gasket materials and for elastic machine uses</p> <p>2) SBR SHEET – SBR INSERTION SHEET: almost same with NR sheet but less elastic than NR sheet</p>
URL	http://bansuki.kr.ecplaza.net/3.asp
10. ECOTAIN	
Products	Dead Battery Regenerators
Features	<ul style="list-style-type: none"> • Input power: a single phase current AC 220V/ Output power: DV 12V

	<ul style="list-style-type: none"> • Power consumption: Max 350W • Standard: 257mm (w) * 260mm(h) * 332mm(l) • Cable length input and output: 1.5M/ Weight: 15 kg/ea
URL	www.ecotain.kr (website being updated)
11. SAMPYUNG CO., LTD	
Products	Incinerators
Features	<ul style="list-style-type: none"> • Design/Engineering/Construction of incineration facilities available • Maintenance and repair of waste treatment facilities
URL	http://www.sampyung.com/
12. EZEN TELECOM INC	
Products	Battery Restoration Devices
Features	<ul style="list-style-type: none"> • Restores used battery (or discarded battery) up to 90-95% its original capacity • Cost effective, reducing pollution and environmental issues
URL	http://www.ezentelecom.com/english/index.htm (product not yet uploaded)
13. INCA SOLUTION	
Products	Energysaving Power Strips
Features	<ul style="list-style-type: none"> • Automatically shuts down power by sensing an idle PC • Immediate blocking, PC-linked blocking and complete blocking • Easy power restoration
URL	http://www.incas.co.kr/
14. eCOREA	
Products	Wood Pellet Boilers
Features	<ul style="list-style-type: none"> • Double backfire prevention ability (air cooling system, power off) • Auto cleaning system (clinker prevention) • Nearly 99% perfect combustion ability, regardless of the fuel quality
URL	http://www.ecorea.biz/base/index.php (product information not yet uploaded)
15. iCeL SYSTEMS KOREA, INC	
Products	DNES Systems / Solar Energy Systems
Features	<ul style="list-style-type: none"> • Prevent from global warming with cost cutting effects • Solar system reduced by 30% compared to existing solar system
URL	http://www.icelkorea.com/pro_solar.html
16. GOODFEELKOREA CO., LTD.	
Products	Eco-Friendly Paper Pencils
Features	<ul style="list-style-type: none"> • Softer than wood and sharpen much easier • Prevent environmental degradation with competitive price • Ideal attractive bulk packaging for corporate gifts and giveaways
URL	www.goodfeelkorea.com
17. TECHNO BIO	
Products	Fuel-Saving Enzymatic Additives
Features	<ul style="list-style-type: none"> • Decreases excessive air volume massively and results in restraining the quantity of oil-flow with chemical reaction at the combustion explosion by adding Power-Z • Burns almost 100% with drastically raised heat calories
URL	http://www.technobio.co.kr/eng/product01.htm
18. FIL MAX CO., LTD.	
Products	Vortex Generating Filtration System
Features	<ul style="list-style-type: none"> • High fouling resistance = less flushing, chemical cleanings and membrane replacements • High permeate flow rate = higher throughout per capital invested • High recovery rate = simplified process in a single pass with high feed solid • High dependability = less costly downtime and replacement parts
URL	http://www.fmxfiltration.com/contents/prod/overview.html?sm=2_1
19. LOOFEN LEE CO., LTD.	
Products	Food Waste Dehydrating Disposer
Features	<ul style="list-style-type: none"> • World's first patented product without odour. Any food is ok, economical maintenance cost, convenience use, environmentally-friendly, good design • Built in freestanding, KS-01
URL	http://loofen.en.ec21.com/offer_list.jsp?gubun=S
20. KOREA SPECIALTECH CO., LTD.	
Products	Beach Waste Cleaning Machines
Features	<ul style="list-style-type: none"> • Designed to clean the wide beach areas to remove pieces of broken glasses & plastics, cigarette ends, small bit of wood, animal excrement etc. • Towed by a Farm Tractor and operated & powered by the Tractor P.T.O.
